MEXICO & GUATEMALA

1 or 2 month trip

1-MEXICO CITY

Mexico's capital city, the food culture here is unreal! Be sure to try the tacos al pastor and torta de chilaquiles. It also has an amazing night life and vibrant markets filled with unique products and joy!

Mexico's artsenal hub, walk along cobbled streets, sample their famous spirit mezcal and visit their huge indoor markets filled with gastronomic gems. Visit Hierve el Agua, a two hour car ride away that is a series of naturally heated pools on the side of a mountain.

N fri

3-SAN JOSE

Nestled in the mountains, many of my friends have deemed this the best sunset they have ever seen. This town is also famous for its mushrooms, they'll serve them to you in a small tea next to a roaring bonfire - happy trip!

4-PUERTO ESCONDIDO

surfer town. The beaches are beautiful, with roaring waves and dazzling sunsets. It has a unique charm, with a bohemian spirit and amazing fish tacos to boot. Beware - nearly all travellers arrive here and never leave!

5 - SAN CRISTOBAL

San Cristobal is a small city nestled in the mountains of Chiapas. Its most popular draw with travellers is a remote church that has a very unique ceremony involving chickens! Probably not suitable for vegans.

6 - PALENQUE & AGUA AZUL

Palenque is the breath-taking site of an old Mayan state that perished in the 8th century. It's remains are something to behold. You can then visit the beautiful waterfalls of Agua Azul. Go on a weekday to have a more peaceful experience!

7-ANTIGUA

Surrounding Antigua lie a family of active volcanoes. Depending on what kind of traveller you are, you can choose to take them in from a rooftop restaurant in the gorgeous mountainous village Antigua, or do a two day hike to their summit!

8-LAKE ATITLAN

People say the volcanic energy from this spectacular lake has powerful healing powers. One thing is for sure, waking up to catch the sunrise as it illuminates this huge body of water lake will cure many!
